Computer/ Smart Grading Policy

For both Computers and Smart Tech classes there will be the same grading policy.

Classwork: 30%

- Assignments are thorough and complete, of high quality, well organized and show a high level of commitment.
- Independent work toward performance criteria and/or targeted standards/elements
- Written/typed tasks, oral presentations or demonstrations, portfolios
- Research tasks (Gr. 3-7), hands-on activities, video or audio tasks

Homework: 15%

- Home assignments will be assigned in class and posted on the database.
- Assignments will not necessarily be assigned each week. Please refer to the database to correspond with the students' assignment books.
- A penalty of [–10] will be infracted for each class meeting time it is late.

Class Participation: 20%

- Active listening and attention
- Intention and effort to the completion of class work in a timely manner
- Cooperation with others

Tests/Quizzes: 15%

- Please anticipate 1-2 quizzes per month on the material being taught. These quizzes will be announced at least a week in advance, as I only meet with the students once a week for this class. **There may be periodic pop quizzes that will not be announced.
- In the beginning and end of each quarter, students will take a typing test to see their progress.

Projects: 20%

- Projects will be assigned throughout each marking period. Projects may be conducted over the course of several weeks, as the nature of the class meeting time permits. Project descriptions and rubrics will be given when assigned.
